sea...in East Africa...Arabia...
Reconstructing the grace of our

whisper at the soft air as it bathes
you—I hear and see you"

We cannot let our brother serve prison
time for a charge of which he is innocent.
He is too valuable to us!

HALL OF RECORDS BUILDING, HIGH ST. & 13th AVE., NEWARK
COURT ROOM #224

"Time Space manifest into the unity of
the creator. The Créator has all experiences
and we live as flying images of
endless imagination. Listen to the creator
speak in me now. Listen, these words
are part of God's thing. I am a
vessel, a black priest interpreting
the present & future for my people
Olorun— Allah speaks in and
thru me now. He begs me to
pray for you—as I am doing—He
bids me have you submit to
the energy.

He bids me pray that you submit
to the energy . . . the energy the energy the energy "

"These future rulers
are black
I see & hear them
now
I am in touch
w/them. They speak thru
my mouth
"Come on—
Come on—
Come on—
Come on—
Come on—
Come on—
Come on—"
They are in the energy
they have created, through their consciousness
a closer connection
w/ the energy "

"The energy the energy the energy the rays
of God roared thru us all...uh
rays of God plunged thru us all-uh
bids me raise myself to tell you
Look!
Listen!
I am in an ecstasy a swoon in
actual touch with everything "
