Nov. 23^{rd.} "THE STEELMAKERS" a FILM...

(SUNDAY)

Mwalimu Center 13 Belmont Avenue!

5:00 pm.

The Steelworkers is a unique and dramatic feature film from the DEMOCRATIC PEOPLE'S REPUBLIC of KOREA (North Korea), it will be shown at 13 Belmont Ave. 5:00pm. This is a story of the transformation not simply of the productive forces, but more importantly of the people. The time is 1954, immediately after the KOREAN WAR which had devastated the entire country. Only one steel mill is standing badly damaged. It must supply the needs of the entire country. The work team led by Tai Din realizes they must first pay attention to the ideological revolution, the education & reshaping of the people's political consciousness, before they think of technical innovation.
