

No Democratic or Republican politicians in the State of New Jersey have come out to support Kawaida Towers, whether we talk about the questionable politics of the exploitative machine of Harry Lerner or the liberal politics of Mrs. Klein, who exposed herself by attack^{ing} (get ready for this) Kawaida Towers for racism is building housing in Newark. We can see from Lerner's corrupt machine, supporting itself off Black peoples' ignorance of power politics while not taking one stand to ~~relieve~~ relieve the suffering of the oppressed masses of Black and Puerto Ricans in this county, that a ~~popular~~ popular ~~democratic~~ "democratic" movement of unified Black and Puerto Rican people must be raised and nurtured to destroy the oppressive and parasitic machinery that has been constructed to control the Black vote. Mrs. Klein has merely revealed that white liberalism is usually a cover story for white opportunism, the same opportunism that had candidates liberal at times during Black Reconstruction and ~~advocating~~ advocating Jim Crow whenever it was politically expedient for them.

The police system has been exposed as a sham and merely a camouflage for the holding ~~army~~ army ~~that~~ whose ~~a~~ job is similar to the ones in Cambodia and Laos; hold back the development and self-determination of these colored people. ~~Mr~~ Mr. Redden will never be able to explain to any Black man's satisfaction how he could arrest a Black City Councilman for standing in an aisle at the Board of Education and at the same time refrain from any arrests or restraints on a violent white mob out to perpetuate the long term suffering of our community for housing in the midst of urban renewal and a crisis fire rate. Redden was forced to ~~resign~~ resign rather than apply the law when it came to white people. Most policemen would have to ~~resign~~ resign!!!

We have seen the unions, the Teamsters, the Carpenters, the Electricians, and many of the Construction Unions side openly with racism. So much so that the Teamsters, for instance, closed their office at Local 286 Hospital Workers Union, that was located at Martland Hospital, because Black workers questioned the union's ~~support~~ open support of white supremacy while they collect Black union dues. The same unions that want to gain power and money by "representing" Black people, when actually they would like to always see us chained to the bantustans while they ride in big cars ~~and~~ to the nice apartment houses they have built with our money.

The courts are a political tool and these local and county courts are definitely not above the corrupt politics that ~~urinate~~ stain the Watergate case — promises of power and influence control these decisions to the ~~devastation~~ devastation of justice. The only alternative to the madness of white supremacy is the continual growth and development of the Unity Movement which will replace this corrupt political machinery ~~and re establish~~ a totally new set of legal, political, and social developments in ~~motiva~~ based on a new ^{Black} value ~~ys~~ system. And, only community organizations like the Committee for Unified NewArk, ~~The People~~ the Congress of Afrikan People, the Afrikan Education Alliance, the Black Leadership Congress, CFUN Community Council, the Black Ministerial Alliance, Organization of Black Citizens, and Project Area Committee, ultimately only these ~~organizations~~ organizations rooted in the Black community and committed to the development of our community will make the changes that will spell the end of racial oppression and humiliation.

These ~~organizations~~ organizations are still on a rapid pace to restore our community, to raise our living standards, and present a whole new version of man's life on earth. Even during the ~~housing~~ housing freeze imposed by King Richard ~~at~~ the alliance of community groups known as the Project Area Committee is putting together a dramatic community development program which will expand and develop the progressive social ideas that are coming out of the Kawaida Towers experience. We learned that we ~~can~~ could build institutions at the same time we built housing, institutions to help us get it together on all levels. At Kawaida Towers we began talking about and developing plans for and finally building an apartment house with a huge community lounge and workshop; day care center (over 1,000 square feet), and audio-~~visual~~ visual room for the watoto (children), and tenant's hobby shop; a security system that in addition to physical protection, allows the tenant to turn to a security station and see who is ringing his bell; and, finally the introduction of a cable hook-up which can bring feature films, like those playing in New York now, onto your television set. ~~With~~ the ~~Central~~ ^{32 VAC} Central Ward the same kind of movement is talking about the development of 1500 units of housing,

a seven acre shopping ~~mall~~ mall, and industrial park for jobs for our people, several mini-schools, theatres for films and performing artists, parks with facilities for the re-creation of the free life patterns of the Afrikan~~Personality~~ Personality, communications centers, and para-medical centers with institutions to train the broad based community in the ~~art~~ arts and sciences necessary to maintain a ~~healthy~~ healthy environment in these tormented ~~in~~ cities. In fact, the Tim Stills Memorial Medical Center is breaking ground for a ~~temporary~~ temporary facility May 16th on Bergen and Avon Avenue.

All these new developments will be ours soon as the fruits of the struggle for unity and change. But the larger ~~and~~ developments, as we have learned from Kawaida Towers, will require that we have ~~political~~ political power ~~is~~ that is not afraid to represent the will of our people. From Tanzanian economic and social development brought to Afrikans by the popular ~~and~~ Afrikan political party of ~~TANU~~ TANU to the raising of the spectacle of widespread social development in China due to the political power won by Mao Tse-Tung's party, the key to political power, economic development and real social progress is representative political parties. The Unity Movement is working to build one in your community. Join it now because only together ~~can~~ we ^{will} win. Pamoja ~~is~~ Tutashinda.
