

Just no where "smokey" was.

Mrs. Pugh.
340 15th Ave. - Age - 43 - 20 yrs ^{in Newark} address
It was about 11:00 we had just finished looking at the ^{1 year} news special
Michael had been outside playing. When he came upstairs (mother) had told him to take garbage out. She looked out window didn't see any police - Michael went on ^{back} porch and took the garbage out of kitchen door. Mother heard shot. Went to window to see where her child was at. When she went to the window Michael was lying on ground. Started yelling and screaming. My son stopped me from going downstairs

No other shooting - The one shot brought her to the window.

Street lamp outside apartment shines on entrance to building and where garbage kept. Mrs. Pugh says she reads by this light. Could not have mistaken for man, looter, etc.

Pugh wound to right of stairs in the dust.
Very well lit

There is a light pole almost in the center of the living room window. The light was on and working that night.

No alleys on either side of house.

Boy was setting garbage cans in front of the house almost directly under a street light.
