Q Before we get into that, were there any efforts during the day of the thirteenth by anybody that you know of to reach the younger members of the community up in the Central Ward?

8  
9  
A Our agency had some of our staff out trying to get some of the leaders of kids who live in the area.

10  
11  
Q How successful was that?

12  
13  
14  
A It wasn't too successful because we couldn't find the kids. They were the leaders. We couldn't find these kids. We had so many other things going on we couldn't concentrate on all of them.

We had a meeting with the mayor, some of our people. We had our own meeting as to what we had to do in terms of our own problem. So we really didn't get to the kids.

Q Do you know of anybody who was trying to get to the kids outside of your organization? Were there any other organizations or any part of the administration?

21  
A Not as I know of.
