

PLANNING SESSION FOR THE
JULY 20-23 NATIONAL CONFERENCE ON BLACK POWER

An intimate family gathering of and by black Americans to put their own house in order and to develop power for fulfillment and the greatest good for all.

On this coming Saturday, May 27, from 10:30 AM to 1:30 PM, we shall have another planning meeting here at 24 Rector Street, Newark, New Jersey to:

- 1 - assign leadership roles for planning committee members;
- 2 - work for early registrations and maximum youth participation;
- 3 - decide on an effective Newark involvement project for the Conference;
- 4 - plan for publicity and Conference staffing;
- 5 - and clear up any other items of business which planning committee members may feel important.

Things look promising for what will be the most substantial symposium and convocation ever held on empowerment possibilities for black people.

A growing number of distinguished young activists and prominent older black Americans have agreed to take leadership roles at the Conference. More leadership places need to be filled.

Those present at our May 20 meeting felt that the great amount of work before us calls for the immediate enlistment and deeper involvement of all Negro Americans who are concerned for the success of the July 20-23 National Conference on Black Power.

Your presence and help on this coming Saturday, May 27 are vital.

Respectfully,

Nathan Wright, Jr.
Conference Committee Chairman
