

Dear Friends:

I was talking to some people the other day and they seemed worried about integration, and what may become of their children.

I offered wages that black and white would not be 2% closer 50 years from now than they are now.

Ducks like black ducks, red heads, blue bells, canvas backs and many other species of ducks. Maybe thrown together, but when in flight or migration or when they go to roost each goes along with its own kind.

Birds, Animals and Fish go together in flocks, herds and schools, and each species goes along with its own kind. And one species does not mingle or cohabit with other species.

Considering this I think every white family should ask this question.

Does the Lord want us to mingle and inter-marry and become as one with the Negro race or not?

Likely better acquainted and more intimate the two races become with one another the more they will dislike each other because of the difference between them. And that over time the gap will grow wider and wider as the time goes by.

It seems many people are peddling the Negro for everyone except themselves.

How long this will continue is hard to say. Over time I believe the differences between the two races will assert itself and become apparent to most everyone that there is a big difference between the two races.

They being different species of human beings.

A Friend
