

# A DANGEROUS COMBINATION

**LE ROI JONES**

**KENNETH GIBSON**

"The wops, the harps and the kikes have poisoned young black minds. We gotta run our schools our way."

JONES

"Jones has some good ideas about education and we have to listen to him."

GIBSON

"All the stores . . . Sears, Bambergers, Klein's, Hahnes, will open for you if you say the magic words! Up against the wall, Mother, this is a stick-up. Or, smash the windows at night. Anytime, no money down, no time to pay. Just take what you want."

JONES

"Jones is one of my advisors. He has an approach to life in Newark that relates to our Community. He has very interesting ideas."

GIBSON

"Our brothers are moving all over, smashing jelly-white faces. Broad and Market Street are ours. We must make it our World, man, and we cannot do this unless the white man is dead. Let us get together and kill him my man."

JONES

"Jones has a right to endorse me and I accept his endorsement. I respect his rights and think everyone in this city should too."

GIBSON

**THINK ABOUT IT!**
