Goals :  $\Delta$  to running school out if necessary. Reasoning: They have pulled so many tricks in the past; many are beginning to feel that we can't have the medical school and have housing any way. So we might as well hope for another kind of victory one which seems more attainable: using our weaponry to get rid of the whole damn thing.

Tactics : (1) Make demands we know they can't meet so that ~~they will be~~ ~~run~~ we can't perpetrate the feeling that there is still much community discord. (press conference to get this point across) (2) Point out to the Republicans that we are prepared to wreck the project if we can't have the <sup>school</sup> ~~hospital~~ our way.
