

JUN 11 1970

HUGH J. ADDONIZIO  
MAYOR  
NEWARK, NEW JERSEY  
07102

Dear Friend:

Newark and our lives here are worth saving and it is up to us to do it.

I promise that if I am reelected, this city will remain balanced and all we have invested in our lives here will be more secure.

Our city is on the move. Look around. \$250 million in new housing and renewal. \$250 million in new colleges and universities. \$100 million in new school construction. Unemployment cut in half, welfare costs reduced and crime down 12.6 percent.

Now the future is threatened. Make no mistake about it. On Tuesday, June 16, we decide whether there is to be compromise and balance for all people in Newark or domination by the forces of race hatred who have no use for democracy.

It is the job of the Mayor to appoint the director of the Police Department which must protect us ... the Fire Department which must be ready to respond on time in moments of emergency ... and the members of all boards, including the Board of Education where balance is most necessary to protect young people from being taught a distorted and hateful picture of their fellow Americans.

The truth is that Tuesday, June 16, is our last chance to keep Newark free for all people.

Our success depends upon your vote. It is the best protection we have. That vote must be used on Tuesday, June 16, and used well.

I urge you to come out and vote for the record of balance and accomplishment produced by our administration and the experienced councilmen who have joined with us. Differences among men and women of good will must be set aside. I urge you not to vote for one but to vote for all. The loss of a single seat could mean the end of effective, equal government in Newark.

The choice is yours. Consider the alternatives with care and on Tuesday, June 16, exercise your right to vote. June 17 will be too late.

Sincerely,  
  
HUGH J. ADDONIZIO  
MAYOR
