

FLYER BEING DISTRIBUTED BY
THE NIGGERS
IN THE NEWARK AREA

The WOPs want
RACE WAR

Last week Addonizio and his poison paisanos called a city council meeting, in order to revote and finally pass through the bill sanctioning POLICE DOGS in Newark. In the industrial areas, they said, but we all know that these dogs are for. they are for us, black folks. For the same reasons the crackers used them in the south!

Now we have to put up with two legged and four legged beasts. Well, OK, if that's the way they want to play it. We know none of the brothers and sisters are going to stand for this dog business. Poison them, shoot them, stick 'em with icepicks, stone em, set traps for them, drop loads of iron and steel on they haid. But dont take nothing from no dog, 4 or 2 legs

The Americans For Law And Order (400 strong) all italians and irish from the ~~outskirts of Newark~~, sucked together by Devil Addonizio to do his bidding will probably show up again at the various public council meetings. We have to get ourselves together to handle these suckers. Now we know some of the brothers and sisters may have some second thoughts about going up against these peckerwood cops, but for certain some of us give a damn about going upside some of these white civilians heads. Knuckles for days!

Come out to these damn meetings, be in to watch the new papers and for flyers like these telling them and where such meetings will be held. We are going to be masters of this city or nobody is. Certainly not these pigeating Italians.
