

13 Belmont Avenue
NewArk, N.J. 07103

FOR IMMEDIATE RELEASE

Kawaida Towers will be built! Although the white supremacists have been overwhelmed by the speed with which we have gained the technical sophistication to develop a 210 unit apartment building, their fear of, and ignorance of positive change cannot be allowed to stifle human advancement. Kawaida Towers has employed the best legal and technical minds in New Jersey, and any questions as to the legality of our work can be easily answered. Many of the questions put to the Temple of Kawaida should be asked of the City of Newark and the New Jersey Department of Community Affairs.

The Temple of Kawaida will not be turned around! Kawaida teaches us that the two aspects of life are defense and development. Legally, the Newark Police Director Redden is responsible for the defense and protection of any legal Black business development. We are waiting for Mr. Redden to give us the same police protection he would give to Prudential Life Insurance or any other business enterprise.

Any vacillation from the rule of law would encourage the rise of neo-fascism.
